

Producción científica 2019

Artículos:

1. Kwon M, Bailén R, Balsalobre P, Jurado M, Bermudez A, Badiola J, Esquirol A, Miralles P, López-Fernández E, Sanz J, Yañez L, Colorado M, Piñana JL, Dorado N, Solán L, Martínez-Laperche C, Buño I, Anguita J, Serrano D, Díez-Martín JL; Grupo Español de Trasplante Hematopoyético y Terapia Celular (GETH). Allogeneic stem-cell transplantation in HIV-1-infected patients with high-risk hematological disorders. *AIDS* 33:1441-1447, 2019.
2. Oarbeascoa G, Dorado N, Solan L, Serrano D, Balsalobre P, Pradillo J, Guinea J, Machado M, Buño I, Anguita J, Díez-Martín JL, Kwon M. Successful treatment of severe Aspergillosis with Isavuconazole therapy after allogeneic stem cell transplantation. *Chemotherapy* 64:57–61, 2019. doi:10.1159/000502279.
3. Solán L, Kwon M, Carbonell D, Dorado N, Balsalobre P, Serrano D, Chicano M, Anguita J, Gayoso J, Díez-Martín JL, Martínez-Laperche C*, Buño I*. ST2 and REG3 α as predictive biomarkers after haploidentical stem cell transplantation using high-dose post-transplantation cyclophosphamide. *Front Immunol* 10:2338, 2019. doi: 10.3389/fimmu.2019.02338. *Last Author, identical contribution. Artículo incluido en el libro (ver apartado "Publicaciones en Libros): Novel Immunological Biomarkers for Allogeneic HSCT Outcome. 2021. Greco R, Ciceri F, Peccatori J, Snowden JA, Bonifazi F, eds. Lausanne: Frontiers Media SA. ISBN 978-2-88966-734-5. ISSN 1664-8714. doi: 10.3389/978-2-88966-734-5.
4. Carbonell D, Suárez-González J, Chicano M, Andrés C, Triviño JC, Rodríguez-Macías G, Bastos-Oreiro M, Font P, Ballesteros M, Muñoz P, Balsalobre P, Kwon M, Anguita J, Díez-Martín JL, Buño I*, Martínez-Laperche C*. Next-generation sequencing improves diagnosis, prognosis and clinical management of myeloid neoplasms. *Cancers* (Basel) 11:1364, 2019. doi:10.3390/cancers11091364. *Last Author, identical contribution.
5. Kwon M, Bailén R, Pascual-Cascón MJ, Dorado N, Gallardo-Morillo AI, García-Sola A, Balsalobre P, Muñoz C, Martínez-Laperche C, Buño I, Anguita J, Díez-Martin JL on behalf of Grupo Español de Trasplante Hematopoyético y Terapia Celular (GETH). Post-transplant cyclophosphamide versus Cyclosporin and Methotrexate as GVHD prophylaxis in matched sibling transplantation. *Blood Adv* 3:3351–3359, 2019. doi:10.1182/bloodadvances.2019000236.
